

Dear ,

I am pleased to inform you that a significant portion of our clientele opts for comprehensive training in Denmark before making an investment in our equipment. The rationale behind their choice to travel to Denmark for this purpose is the unparalleled learning experience offered at our duct cleaning training center, which stands as the largest in the world.

This training, exclusively arranged for your company, is meticulously tailored to meet your specific needs. Most of our clients choose to undergo this training early on in their journey within the duct cleaning industry. The training equips participants with the essential knowledge required to kickstart their ventures and achieve immediate success.

I strongly recommend prioritizing participation in this comprehensive training as your initial step. During these sessions, you will gain in-depth insights into duct cleaning, including its significance, equipment utilization, pricing strategies, and job planning. Upon completion, you will receive a USB containing all training materials, along with a certificate that validates your course completion—a valuable asset for marketing purposes.

Armed with this knowledge, you will be well-equipped to conduct a thorough strategic analysis and establish your cleaning company. Typically, the training is attended by a manager, a practical operative responsible for cleaning, and possibly a marketing representative tasked with sales.

Our training program spans 2½ days and is exclusively tailored to each customer, ensuring optimal learning outcomes. The cost for this invaluable training is EURO 1000 for up to five participants, which is fully refundable upon equipment purchase (minimum order of €15,000) within six months post-training. We deduct the training fee from the package price upon equipment acquisition within the specified timeframe.

Attached herewith is a leaflet detailing the training program, along with a suggested travel itinerary. Typically, the training schedule follows this format:

- Arrival on Monday
- Training sessions on Tuesday and Wednesday
- Conclusion of training and departure on Thursday

Should you have any queries or require further assistance, feel free to reach out to me via WhatsApp at +45 42453530.

Thank you for considering this opportunity.

Warm regards,
